

DHARANESH A

Coimbatore, Tamil Nadu

📞 9342428139 ✉ adharanesh98@gmail.com 🔗 LinkedIn 🐙 GitHub </> LeetCode

Software Engineer skilled in building scalable systems using Java and Spring Boot, with strong problem-solving and competitive programming skills.

Education

Sri Krishna College of Technology

Bachelor of Engineering in Computer Science(Cyber Security) | CGPA: 7.8

Coimbatore, Tamil Nadu

Oct 2023 – May 2027

Sri Vidya Mandir Matric.Hr.Sec.School

Higher Secondary | Percentage: 91.13

Namakkal, Tamil Nadu

March 2022

Internship

Techvolt Software

Software Engineer Intern

May 2025 – June 2025

Coimbatore

- Built and optimized backend components and REST APIs using Java and Spring Boot.
- Implemented JWT-based authentication and role-based authorization for secure API access.
- Optimized MySQL queries to improve performance, reducing API response time by 20–25%.
- Collaborated with a team of engineers to debug and stabilize backend services during testing.

Projects

Distributed Real-Time Chat System | *Java, Spring Boot, WebSocket, Kafka, Redis, PostgreSQL, Docker*

GitHub

- Built distributed real-time chat across 2 servers using Spring Boot, WebSocket, Kafka with <10ms latency.
- Implemented Kafka message routing achieving zero message loss across private, group and notification topics.
- Designed WhatsApp-style offline delivery using Redis cache + PostgreSQL fallback for 100x faster retrieval.
- Resolved WebSocket race condition via client-ready signal pattern and containerized 5 services using Docker.

Distributed Order Processing System | *Java, Spring Boot, MySQL, REST APIs, Redis Streams, JWT*

GitHub

- Built an event-driven microservices order system handling 1000+ orders/sec.
- Prevented overselling using Redis SETNX locking, ensuring exactly-once stock reservation (<10ms latency)
- Implemented Saga pattern for distributed transactions with auto-recovery <1s and 100% consistency.
- Secured APIs with JWT, rate limiting (5 req/min), and idempotency, preventing duplicate orders and abuse.

Technical Skills

Languages: Java, C++, SQL

Core Concepts: Data Structures and Algorithms, DBMS, Operating Systems, Computer Networks.

Backend: Spring Boot, REST APIs, JWT Authentication.

Database: MySQL, PostgreSQL, Redis.

Frontend: React.js, HTML, CSS, Tailwind CSS.

Tools: Git, GitHub, Docker, MySQL Workbench, VS Code, IntelliJ IDEA.

System Design: Object-Oriented Programming (OOP), LLD, Distributed Systems, Scalability, Fault Tolerance.

Achievements

- Solved 600+ DSA problems across various competitive programming platforms.
- Solved 300+ DSA problems in LeetCode.
- Ranked in the top 10% globally in multiple LeetCode contests.
- Achieved Rank 1167/28000 in LeetCode Weekly contest 500.
- All Kill in LeetCode Weekly Contest 501.

Certifications

- Design and Analysis of Algorithms - NPTEL.
- Software Development Professional Certificate - IBM.
- Java OOPs Concepts - Infosys Springboard.
