Software Engineer skilled in building scalable backend systems with Java & Spring Boot, with strong DSA and competitive programming background

Education

Sri Krishna College of Technology

Coimbatore, Tamil Nadu

Bachelor of Engineering in Computer Science(Cyber Security) | CGPA: 7.8

Oct 2023 – May 2027

Sri Vidya Mandir Matric.Hr.Sec.School

Namakkal, Tamil Nadu

Higher Secondary | Percentage: 91.13

March 2022

Internship

Techvolt Software

May 2025 – June 2025

Software Engineer Intern

Coimbatore

- Built and optimized backend components and REST APIs using Java and Spring Boot.
- Implemented JWT-based authentication and role-based authorization for secure API access.
- Optimized MySQL queries to improve performance, reducing API response time by 20–25%.
- Collaborated with a team of engineers to debug and stabilize backend services during testing.

Projects

Distributed Order Processing System | *Java, Spring Boot, MySQL, REST APIs, Redis Streams, JWT*

May 2025

- Built an event-driven microservices order system handling 1000+ orders/sec
- Prevented overselling using Redis SETNX locking, ensuring exactly-once stock reservation (<10ms latency)
- Implemented Saga pattern for distributed transactions with auto-recovery <1s and 100% consistency
- Secured APIs with JWT, rate limiting (5 req/min), and idempotency, preventing duplicate orders and abuse

Distributed URL Shortener | *Java, Spring Boot, MySQL, Redis, Docker*

July 2025

- Developed a scalable URL shortener using Base62 encoding, supporting 10K+ URLs via RESTful APIs.
- Integrated Redis caching, reducing database reads by ~40% and improving redirection latency under high traffic.
- Optimized MySQL indexing and implemented rate limiting to handle 200+ concurrent requests reliably.
- Designed a load-balanced, Dockerized architecture enabling horizontal scalability and high availability.

Technical Skills

Languages: Java, C++, SQL

Core Concepts: Data Structures and Algorithms, DBMS, Operating Systems, Computer Networks

Backend: Spring Boot, REST APIs, JWT Authentication

Frontend: React.js, HTML, CSS, Tailwind CSS

Database: MySQL, Redis

Tools: Git, GitHub, Docker, MySQL Workbench, VS Code, IntelliJ IDEA

System Design: Object-Oriented Programming (OOP), LLD, Distributed Systems, Scalability, Fault Tolerance

Achievements

- Solved 1000+ DSA problems across LeetCode and competitive programming platforms.
- Ranked in the top 10% globally in multiple LeetCode contests.
- Global Rank 858 / 537,000 in TCS CodeVita Season 12.
- Achieved Rank 637/26000 in LeetCode Weekly contest 458.
- All Kill in LeetCode Biweekly Contest 170, Weekly contest 481.

Certifications

- AWS Certified Developer - Associate.
- Software Development Professional Certificate - IBM.
- Java Full Stack Developer - Great Learning.
